

Dr. Myrna C. Godoy is an Associate Professor at the Department of Diagnostic Radiology of The University of Texas – MD Anderson Cancer Center (MDACC) and Clinical Director of MDACC Lung Cancer Screening Program. Following her radiology residency, Dr. Godoy completed a fellowship in thoracic imaging at the University of Sao Paulo (Brazil), a fellowship in thoracic and abdominal imaging at University of British Columbia, and a research fellowship in thoracic imaging at the New York University. Her main current research interest focus on lung cancer screening and biomarker validation, shared-decision making and smoking cessation, imaging characterization of lung nodules for malignancy risk assessment, technological advances in computed tomography imaging, including dual-energy computed tomography, iterative image reconstruction, and radiomics. She is currently serving as the Chair of Research committee of Society of Thoracic Radiology (STR).
